

TEKSAN MACHINE QUALITY POLICY

Our company carries out the activities of Extrusion, Mechanical Process, Eloxal Coating, Electrostatic Powder Paint Application Activities and Welding Process of aluminium profiles.

Satisfying our customers is our most important job.

Our most important goal to ensure that our products and services have the specifications that our customers want, and to provide our customers with cost-effective and timely delivery.

Our customers are the focus of all our business

We always do our jobs according to their expectations and the style how the customers want.

Continuous improvement is the basis of our success.

We aim to do better in every job we do.

For this purpose, we constantly work to improve all our processes in accordance with the law.

Teamwork is our lifestyle.

We are a family with our employees, suppliers, customers and other organizations we have relationships with.

We value each other, trust, respect, benefit each other and grow together by working in harmony to achieve our goals.

As Teksan Machine, we ensure the spread of these basic principles to all our team members and make them a lifestyle.
